

Several Hundred Summonses

Placed on Cars Which Showed no Federal Stamp. Delinquents Line up

Carelessness and complacency were ascribed as the main reasons for motorists failing to have their auto use tax stamp or to have them displayed, as delinquents lined up at the internal revenue office at the post office today in response to summons placed by federal agents Saturday on cars not bearing the federal stickers.

One to a half-dozen persons were in the office throughout the day with their summons, buying stamps if not previously purchased, after which they are checked off the list. Those who claim to have lost the auto use stamp are required to make out affidavits.

Several hundreds summonses were distributed in Sedalia and vicinity Saturday, and internal revenue agents will be back from time to time to continue rounding up those who do not have the stickers and they will be required to purchase them.

Subject to Fines

Future delinquencies will be subject to the \$25 fine in addition to the \$5 cost of a stamp, W. D. Steele, deputy internal revenue agent of the Sedalia office, said. The stamps may be purchased at the post office window as long as the supply holds out, however, it was said this afternoon there are very few left. More have been ordered.

The revenue office must be contacted directly to obtain stamps at reduced rates, in the case of cars just coming into use, but the applicant must prove that the car has not been in his use since the deadline of July 1 or show that the car is newly purchased by him. Last year the stamps could be bought at the post office window, with a reduction for each month following July, and there were some who escaped detection of delinquency, saving a few cents. In order to avoid this "chiseling," the purchase of stamps at reduced rates must be made at the revenue office this year.

War Measure Stamp

The auto use tax stamp primarily is a war measure, the revenue derived going into the war effort, and persons trying to evade paying the tax are poor Americans, an official declared.

Some of the incidents in regard to not possessing the stamps have humorous turns.

It is said that a Negro man, driving a Kansas car, was stopped and asked if he had a federal sticker.

"No," he replied and explained, "I use from Kansas—they don't have anything like that over there."

A Sedalian who had bought a stamp but failed to put it on his car noticed his summons Saturday, and went immediately to the revenue office to explain his situation, and while he was there another summons was placed on his car, "heaping insult to injury," he muttered.

The most frequent alibi for not having the federal stamp was "I forgot."

The summonses given here are for appearances today, Tuesday and Wednesday.

• TODAY on the War Fronts

LONDON, Aug. 14.—(P)—The German radio, asserting that large Allied convoys were streaming through the Strait of Gibraltar into the Mediterranean, speculated tonight that landings in the south of Europe were imminent.

There was no Allied confirmation of such reports.

The Germans spoke of possible landings in southern France, on the islands of Greece and of new incursions in Italy above the Gothic line, which Allied land forces now are approaching.

The appearance of Prime Minister Churchill in Italy clearly created anxiety in Berlin.

"Concentrations of Allied troops in the Mediterranean have been reported in the last few days," the enemy radio said.

Churchill's talks with Marshal Tito, the Yugoslav patriot army commander, appeared to Berlin to be concerned chiefly with impending military action.

ALENCON, France, Aug. 14.—(11:35 p. m.)—(P)—The Allies tonight narrowed to 12 miles the escape gap for the bulk of German armies in western France.

Obligation Rests Upon Americans

Must Protect Privileges Which Nation Has

Speaking on the subject: "Responsibility of Leadership," before the Sedalia Rotary club at its noon day meeting at the Bothwell hotel, Dr. Gus Dyer of Nashville, Tenn., said: "The issue before you as intelligent and representative community leaders is: Are you an American, are you going to permit the system of free enterprise under which this country has attained its pre-eminent world leadership to be destroyed. For two thousand years, said he, 'the world made no business progress. Two reasons account for this, first the outstanding brain of the past were attracted to fields other than business. There were great philosophers, great thinkers, great political and military leaders, but no great business men. The second reason for this lack of progress was the fact that there was no system of government that would guarantee industrial and social progress. The American system of government founded on the inalienable rights of the individual, and guaranteed by the constitution, does vouchsafe this security both to the individual and the business enterprise. The cardinal tenet of this government is that it is the purpose of the government to regulate, not direct. It is only under this interpretation of government that we have now and will continue to have the essentials of progress and freedom."

"Superior ability adds up to responsibility," he said, and upon you gentlemen rests the obligation to protect these priceless privileges which have made our nation great."

Many Guests

The meeting was presided over by Lawrence Barnett, president. Dr. Dyer was introduced by Dan Dean, program chairman for the month of August. Charles Clay, superintendent of the Town and Country Shoe factory, and E. C. Thompson, were introduced as new members, the latter coming back into the club under a changed classification. Guests for the day were: Robert Thompson with his father, E. C. Thompson, Rev. H. U. Campbell, with H. W. Waterson; P. H. Sellers with Nolan Bricken; R. F. Harris and Dr. C. D. Osborne, with Dr. J. E. Canaday, and Rotarian Tom Mooney of Eau Claire, Wisconsin.

Major Schrader Home on Leave

Major Carl G. Schrader, who for the past thirteen months has been overseas, arrived home Sunday afternoon to spend his leave visiting with his parents, Mr. and Mrs. William Schrader, 715 West Third street. Major Schrader has been connected with the United States Army Air Forces and stationed in England.

He left the states in June of 1943 and arrived back in this country about two weeks ago.

Major Schrader said that during his stay in England he had no opportunity of meeting or seeing any of the Sedalians who were in England, however, he did meet many Missourians from surrounding communities, especially from Kansas City and St. Louis.

He entered the service in August of 1942.

Sedalian is Carried From Battle Field

Geo. H. DeRossett Convalescens in Hospital in England

U. S. ARMY GENERAL HOSPITAL, England—Landing in France on D-day, Private First Class George H. DeRossett, 38, of route 3, Sedalia, saw a month's fighting before a shrapnel wound sent him to a United States army general hospital in England.

"We landed amidst all the shelling and fighting there," Pvt. DeRossett said. "As soon as we reached the beach we struck inland. The land was flooded from the rain."

After digging in for the night, Pvt. DeRossett's outfit started for Cherbourg the following morning. He was hit in the arm once by a shell fragment, but a medic patched him up and he continued to fight.

"Cherbourg had already been taken when we got there," Pvt. DeRossett said, "and the engineers were digging out the rubble caused by our steady bombing."

Advance Toward St. Lo

After a brief rest his unit began an advance toward St. Lo. Relieving a division that had been fighting for several days, they received a heavy shelling attack that continued throughout the night. The following morning they attacked, and Pvt. DeRossett was hit by shrapnel in the arm and leg. A medic carried him to an aid station and from there he was evacuated to England.

"He is recovering very well," said his ward surgeon, Captain James A. Gannon, Jr., of Baltimore, Md. "His wounds are healing fast."

"We are fully able to administer the best in medical care and treatment. We have a staff of experienced doctors and well trained nurses and enlisted personnel," said Colonel Knox Dunlap of Dallas, Texas, commanding officer of the hospital. "Our equipment is of the latest including sulfa drugs, penicillin and blood plasma."

Pvt. DeRossett's parents, Mr. and Mrs. Sam DeRossett, live at Cole Camp. Formerly a farmer, he entered the army in November, 1942.

Issues Call For Uprising In France

SUPREME HEADQUARTERS ALLIED EXPEDITIONARY FORCE, Aug. 14.—(P)—Gen. Charles De Gaulle's French Committee of National Liberation issued a call tonight for a national uprising in France.

"The duty of every Frenchman has been outlined in the appeal of De Gaulle for the people of France," a statement said.

"There is not one Frenchman who does not feel and who does not know that it is his simple and sacred duty to take part immediately in the supreme war effort of the country."

"In the field, in the factory, in the workshop, in the office, in the street—whether he be under arrest, deported or a prisoner of war—each Frenchman can harm the enemy or prepare that which harms him."

Cpl. W. Seigel, Marine, Dies Parents Learn

Overseas Two Years, Served At Tarawa

Cpl. Warren W. Seigel, 23, of the United States Marine Corps lost his life in action, a telegram from the war department notified his mother, Mrs. Cora E. Seigel, 1301 East Booneville, Sunday.

Cpl. Seigel's father, William Seigel, is employed at the Sunflower Ordnance plant near Lawrence, Kas.

The message, which did not give the date nor identify the locality, stated that "temporary burial was made at the place of his death" and that further information would follow. The last time Mrs. Seigel received a letter from her son was in April.

Cpl. Seigel who had been overseas two years, served in the Tarawa campaign and before seeing more action was in a rest camp in the Gilbert Islands. He was in an amphibian tractor battalion, of the Second Marine division.

Graduated At Otterville

A graduate of the Otterville high school, he enlisted in the Marines, entering service January 14, 1942, and took his training at San Diego, Calif.

A brother, Eugene W. Seigel, 18, is in the Merchant Marines. Another brother, Arthur Seigel, lives in Tarkio, Mo., as do two sisters, Mrs. Thelma Dunlap and Mrs. Edith Jackson. There are two other sisters, Mrs. Lola Mae Jackson of Sergeant Bluff, Iowa, and Mrs. Rena Thacker of Glenwood, Iowa. A sister, Miss Eula Marie Seigel, died 17 years ago.

Mrs. Dunlap and son, Paul, and Arthur Seigel, who came to Sedalia Sunday after learning of Cpl. Seigel's death, returned this afternoon to Tarkio.

Leo O. Bahner Dies in Action

Parents First Told He is Missing, Then Informed of Death

Pvt. Leo Otto Bahner, 19, son of Mr. and Mrs. Joseph L. Bahner, 1007 South Harrison, avenue, recently reported missing in action, has been reported killed in action since July 12, according to word received late Saturday night by his parents from the war department.

Pvt. Bahner, who was in the infantry, had been in service since August 26, 1943. He received his basic training at Camp Adair, Ore., and went to North Africa the latter part of April and had been in Italy since June 25.

Left School for Army

Born in Sedalia in 1924, Private Bahner was 19 last May 14. He attended Sacred Heart grade school and had completed three years at Smith-Cotton high school and his entry into the army prevented him from attending his senior year.

He leaves his parents, one brother and sister, Edward and Irene, of the home and a cousin, Bernadine Klein, who makes her home with his parents. He was a grandson of Mr. and Mrs. Louis Bahner of Lake Creek and of the late Mr. and Mrs. John Klein, who lived in Lake Creek.

Fresh Vegetables Govern Rationing

WASHINGTON, Aug. 14.—(P)—Availability of fresh vegetables will be restored Aug. 18 as the yardstick in granting supplemental ration points for canned vegetables, the Office of Price Administration announced today.

This test was abandoned when most major canned vegetables were made point-free early this summer. With a number of such items now back on the ration list, supplemental points are being issued again, OPA said.

They are given in areas where the supply of fresh vegetables is not considered sufficient to meet minimum nutritional needs.

Invasion of Japan May Not Be Necessary

Possibility U. S. Warships May Bombard Country

By the Associated Press

U. S. PACIFIC FLEET HEADQUARTERS, Pearl Harbor, Aug. 14.—The fourth bombing of the Philippines in five days and new air blows north and south of Japan were portents today as a war moving west so fast that Admiral Chester W. Nimitz may have to advance his headquarters to catch up with it.

Under scoring this tempo of offensive, Nimitz told a press conference the war may be won without invading Japan—although occupation "would be necessary to insure a winning peace"—and mentioned the possibility of American warships bombarding Nippon.

The commander-in-chief of the Pacific fleet and Pacific ocean areas, in looking for new headquarters, even has his eye on the recently invaded Marianas, 3,000 miles away, more than 600 miles past Japanese-held Truk and within 1,500 miles of Tokyo.

It now can be disclosed that Nimitz, after momentous conferences here with President Roosevelt and Gen. Douglas MacArthur, went to Guam and Saipan, consulted fighting leaders there and just has returned, determined "to put the heat on as hard and fast as we can."

Ready to Move

"I am not prepared to say now whether I will advance my headquarters to the Marianas," he said, "but I can say that I constantly am on the lookout for an opportunity to move closer to the fighting."

That fighting was carried again to the Philippines Saturday, MacArthur announced today, by New Guinea based Liberators which sank a 3,000-ton freighter in Davao gulf.

It was carried within 600 miles of Tokyo Friday by Marianas-based Liberators which bombed the airfield and a cargo ship, at Chichi Jima in the Bonins, south of Japan.

Nimitz plotted war strategy in the Marianas with Vice Adm. Richmond Kelly Turner, who is establishing a huge invasion base at Saipan. He talked with Vice Adm. Marc A. Mitscher, whose powerful task force 58 recently drove the Japanese fleet behind the Philippines, and conferred with Maj. Gen. Roy S. Geiger of the Marine Corps.

On the Job

He said that American forces in all branches of service in the Marianas "are ready to go" and "can assure the folks back home these young men never will let them down."

He brought back a letter from liberated Guam, signed by a delegation in behalf of the more than 20,000 natives freed on that island, attesting "what kept us up through 32 months of Japanese oppression was our determined reliance upon our mother country's power, sense of justice and national brotherhood."

Nimitz said he did not believe any "single form of attack will defeat Japan."

Although foreseeing the possibility of forcing Japan, without invasion, to "throw in the sponge," Nimitz told newsmen "we should keep in mind the possible necessity of invasion and be prepared for it."

During the entire central Pacific campaign—Gilberts, Marshalls, Marianas—Nimitz said 52,323 Japanese killed in action have been counted and 3,022 taken prisoner at a cost in American dead of 5,903.

100,000 Germans Trapped In France Fight Desperately; Reds Mass For All-Out Assault

Little News From Siege of Warsaw Where Russians Are Outside City

By Daniel De Luce

MOSCOW, Aug. 14.—(P)—The zero hour for an all-out Soviet assault on East Prussia appeared to be approaching rapidly today as Russian armies massed in a threatening arc before the borders of that German province.

Russian units to the south were 15 to 17 miles from East Prussia frontier, while to the east other Soviet forces were seven to 10 miles away and to the north from 30 to 35 miles.

Red army forces apparently striving to rip Nazi defenses in East Prussia wide open from the south menaced the enemy stronghold of Lomza, vital communications center that links embattled Warsaw with the Junker Province.

Great task battles continued west of the Vistula in the Kielce region about 100 miles south of Warsaw and within 35 miles of Krakow, the last great Polish bastion guarding industrial centers of German Silesia 75 miles from advanced Russian elements. The Germans were counterattacking vainly.

Virtually no news came from the siege of Warsaw itself where the Russians were planted just outside the Polish capital on the eastern side of the broad and swift Vistula.

Deep Into Nazi Lines

Since Friday the Russians between Warsaw and East Prussia have bitten deep into German lines, capturing 530 settlements and forcing three rivers, the Narew, the Upper Bug and the Biebrza, crossed Sunday. Progress here was one of the major strategic victories of the summer campaign, for the Germans had mounted massive counterattacks in futile attempts to destroy this threatening wing of Rokossovsky's forces.

Marshal Konstantin Rokossovsky's army group was pressing north and northwest on a 65-mile front from the Bug northwest of Warsaw. The improvement communications center of Lomza, Ostrow and Ostroleka lay within his grasp, and there are virtually no other large towns before the East Prussian frontier.

At the same time, a Soviet communique disclosed that the twin armies of Rokossovsky and Gen. G. F. Zakharov, whose mammoth drive to outflank Warsaw on a 100-mile front has reached almost the entire length of the Warsaw-Bialystok railroad, had cleared the Germans from more than 180 settlements north-east of the Polish-capital.

Heavy Nazi Casualties

The Russians announced Gen. Andrei Yeremenko's second Baltic army, now almost half way across Latvia, had killed or captured nearly 70,000 Germans in a month, boosting to 609,526 the Nazi casualties inflicted in the summer offensive.

Mostowka, 11 miles northeast of Warsaw, was taken by Rokossovsky's troops. That town and captured Sulejow, 26 miles northeast of Warsaw, are only two miles from the Warsaw-Bialystok rail line.

Soviet rifle units supported by tanks and planes were 27 miles from the East Prussia city of Lyck, along the main highway—rail lines running northwest from Bialystok.

German 7th Army is Near Destruction

By Merrill Mueller

Representing the Combined American Networks GEN. EISENHOWER'S ADVANCED COMMAND POST, Aug. 14.—(P)—The destruction of the German 7th army is about to take place in the present battle of France.

Gen. Eisenhower, supreme Allied invasion commander, predicts this coming week will be one of the most momentous in the history of this war—a fruitful week for us and a fateful week for the enemy.

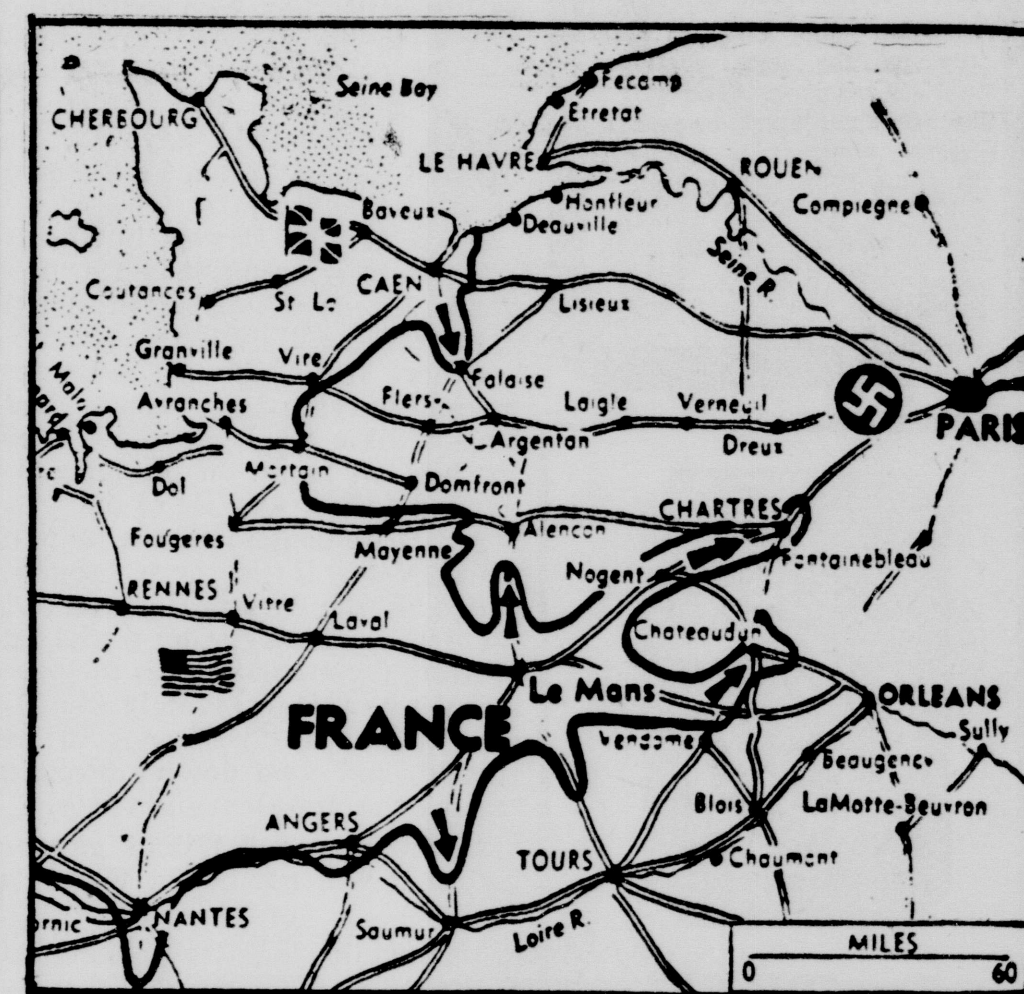

Peace cannot come with the major victory we are about to accomplish, because there are three German armies remaining in France which are not engaged. It is true that some divisions from these three German armies remaining armies have been shifted into the present battle and are lost in the Allied pocket.

Ninety-nine Want Second Hand Car

PARSONS, Kansas, Aug. 14.—(P)—When 99 persons bid the ceiling price—\$930—for a 1941 model sedan, Sheriff Fred Crispell holding an auction, had to call time out.

The sheriff had expected to have to decide the buyer by taking a number from a hat but he had prepared only 50 numbers.

After the delay, Gail Roberts, Oswego, won the right to buy the car which had been confiscated as a liquor carrier and ordered sold at public auction.

Although the Nazi rear guard fights to hold hinge of line at Falais and Vire-Morlain, U. S. armored columns plunge toward Orleans, Tour and Samur from LeMans. Another column is reported 10 miles below Nantes on the Loire River. A column driving on Chartres is reported to be within sight of Eiffel Tower. (NEA TELEMAP).

Planes Wreck Railroad Cars

LONDON, Aug. 14.—(P)—The U. S. Eighth air force reported today that its fighter bombers had destroyed or damaged more than 6,000 railroad cars in operations over France in the last two days, along with 594 locomotives, 931 motor vehicles and more than 100 barges.

Among the railroad cars were 154 carrying ammunition, and 433 tank cars.

In addition U. S. Ninth air force fighter bombers knocked out 30 tanks, 144 railroad cars, two locomotives, 309 motorcycles, 30 horse drawn vehicles, 40 gun positions and three ammunition dumps and cut rail lines at 11 places.

In the week the Ninth air force pilots destroyed 5 German planes in the air while losing 37 planes.

Escape Roads Cut, Allied Air Forces Pound on Every Movement of Enemy

By Gladwin Hill

SUPREME HEADQUARTERS ALLIED EXPEDITIONARY FORCE, Aug. 14.—(P)—Canadian and American armor and infantry, tightening a death-vise on a huge trap holding the cream of Germany's forces in northwestern Europe, narrowed the enemy escape exit to 15 miles between Falaise and Argentan today.

Gen. Dwight D. Eisenhower's forces were driving for their greatest victory in the west in the shell and bomb-swept pocket, and an Allied Staff officer declared, "it will be a military miracle if the Germans should get out anywhere near whole."

"This is the end of a German army," he declared.

By Gladwin Hill

SUPREME HEADQUARTERS, Allied Expeditionary Force, Aug. 14.—(P)—American tanks and infantry advanced 7 to 12 miles and Canadian armored infantry leaped forward in a new offensive today, striking for the destruction of the cream of Germany's forces in northwestern Europe, caught in a closing ring with an escape hole less than 16 miles wide.

British, Canadian and American troops were swiftly collapsing a huge Nazi pocket, spurred by Gen. Eisenhower's declaration that they

had a fleeting opportunity to score their greatest victory in the west, a victory which might bring the fall of Paris like a ripe plum.

American armored spearheads, which had swept dramatically behind the Germans from LeMans, forming the southern jaw of an Allied nut-cracker, had completely closed around Argentan.

Canadian tanks and infantry, carried forward in tough armored tank vehicles called "priests," jumped off in a major attack which gained two miles and crossed the Laison river toward Falaise, the northern jaw of the clamp.

Reduced Gap

The effect was to cut to less than 16 miles the gap through which Field Marshal Gen. Guenther von Kluge was making frantic efforts to extricate approximately 100,000 Germans—a fourth of the entire force with which the Allies have come in contact since D-day. (Please turn to Page 4, Column 3)

WASHINGTON, Aug. 14 — The

Premier of Poland, who favored

After Sikorski was killed, Ret-

trend of Polish affairs. Finally,
he went to Premier Mikolajczyk,
told him he wanted to leave the
Polish government-in-exile and
return to Poland to help the un-

pathetic but asked how Rettinger
expected to return.

"I can return by parachute,"

was the reply.

"But you're too old for that,"
argued Mikolajczyk. "That's a
hazard only for young men."

Rettinger countered that he was
57 and plenty young enough to
take a parachute jump for the
sake of his homeland.

Finally, the Polish premier yielded
to the point of advising Ret-
tinger to go up to Scotland and
take two or three practice jumps
in order to be ready for the big
jump over Poland. But Rettinger
replied: "No. After the first jump,
I would desert and run away to
London. At my age, I have one
jump in me. I can jump from a
plane over Poland, but that is all.
No practice jumps in Scotland."

So finally, last February, Ret-
tinger did jump over Poland and
did join the Polish underground.

The amazing thing, however, is
that, when Premier Mikolajczyk
recently left on his all-important
mission to Moscow, Polish officials
managed to get word to Rettinger
inside Poland via the underground;
also managed to get him out of
Poland and bring him to Cairo.

In Cairo, Rettinger met Premier
Mikolajczyk and had a very im-
portant conference, during which
he gave a first hand report regard-
ing the sentiment of the Polish
people toward Russia, the status
of their resistance, and other in-
formation needed by the Premier
for his conference with Stalin.

Dewey's White House Friend

Best friend Governor Dewey has
inside or around the White House
today is not Bernie Baruch, who
tries to win friends for Dewey,
nor even Fred Sears, Jr., ex-aide
to Justice Byrnes, who contributed
\$2,000 to the Dewey campaign.
Actually, Dewey's best White
House friend, in the opinion of
other presidential advisers, is
General "Pa" Watson, FDR's own
closest secretary.

Pa is not for Dewey, but he is
accused of playing into Dewey's
hands by needling the president
against Wendell Willkie.

Other White House intimates
have been reminding the president
how Willkie went down the line
for him on taxes, on foreign pol-
icy and on every phase of the war,
say that he could swing a million
or so votes if he were brought
closer to the White House. But
their work is undone by genial Pa
Watson, the man who sees the pre-
sident most, who privately consid-
ers Willkie a liberal not to be
trusted, and who doesn't hesitate
to give the president his views.

If Roosevelt and Willkie get to-
gether it will not be Pa Watson's
fault.

Meanwhile, the Dewey camp is
still sending all sorts of ambassa-
dors of good will to Willkie, try-

ing to win him over to support
for the Republican ticket. Latest
report is that Willkie can be se-

far, he hasn't budged; but if Pa
Watson keeps on, he may.

tionist Senator Gerald Nye in
North Dakota's Republican pri-
mary, they found that it was one
intensely pro-German district, Mc-
Intosh county, which put him
across.

McIntosh county is largely con-
trolled by the Wishek family, plus
other Germans who have kept
strong sympathies with the father-
land. The county voted almost
solidly for Nye — with one unique
exception — giving him a 1,368
margin.

At the last minute, election au-
thorities almost held up the coun-
ty's vote on the ground that no
auditor's election seal had been
placed on the abstract of votes.
Had the 1,368 votes finally been
thrown out, Nye's leading compe-
titor, Lynn Stambaugh, would
have won, since he trailed Nye by
only 972 votes in the over-all state
tally.

Unique Exception

Unique exception to Nye's sweep
of McIntosh county was the fact
that Congressman Usher Burdick,
who ran a close third, carried the
town of Wishek, the county seat.
Here is the untold story of how
he did it.

Driving through this German
stronghold, Burdick decided that
he didn't have a chance, but that
he would at least see what the peo-
ple were talking and thinking
about. So he dropped in at a tav-
ern where several Germans were
drinking beer.

Without introducing himself,
Burdick got to talking with them,
bought them some sausage, and
got into a game of rummy. The
game lasted most of the afternoon.
Finally, one of the Germans said:
"Aren't you Congressman Burdick?"

"Yes," Burdick replied. "But
that doesn't make any difference.
I know you are all against me
here and I just wanted to drop in
and have some fun."

When the election returns were
counted, Burdick, a forthright an-
ti-Nazi and anti-isolationist, had
carried Wishek against Nye.

Note — Republican Congress-
man Burdick is being urged by
friends to run as an independent
against Nye in November.

The Life of
EISENHOWER
First Biography of America's Great General
By

"UGLY IKE"

III

GEN. DAVID DWIGHT EISEN-
HOWER was born in Denison,
Texas, on Oct. 14, 1890, son of
David Jacob Eisenhower, born in
Elizabethville, Pa., on Sept. 23,
1863, and Ida Elizabeth Stover,
born at Mount Sidney, near Staun-
ton, Va., on May 1, 1862.

David Eisenhower met Elizabeth
Stover in a college romance at
Lecompton College in Kansas.
They were married in the summer
of 1885.

The Eisenhowers and Stovers
are two of the old pioneer families
in the settlement and building of
the nation. Both have been in
America over two hundred years.
The name Eisenhower was origi-
nally spelled Eisenhauer, meaning
"hewers of iron." From the con-
tractions, Eisen, meaning iron, and
"hewers," as the general is familiarly
known, is created the historical
cognomen, "Iron Ike."

Not only did Dwight become Ike,
but all the Eisenhower boys be-
came Ike. When there were six of
these little Ikes they went to school
in pairs. The oldest became "Big
Ike," the youngest "Little Ike," and
the boys between were various
gradations of Ikes, "Red Ike," etc.,
according to their characteristics.
When other babies arrived they
assumed the throne of "Little Ike,"
and for a time the General was
just "Ugly Ike," during his awk-
ward, gangling years. But Mother
Eisenhower disclaims all knowl-
edge of these nicknames. When
asked as to the whereabouts and
doings of "Ike" she asks blandly,

"Ike? Who's Ike?"

ABILENE, in the heart of Kan-
sas, the home of the Eisen-
hower family, is a typical prairie
town of nearly six thousand people.

When Abilene people recall
young Dwight now, their anec-
dotes seem to center on his high-
school days. He managed to carve
out an athletic career second only
to that of his older brother, Edgar
("Big Ike"), who was in his school
class.

Classmates of Dwight describe
him as "strong as an ox" and the
"scrappiest" kid in school. In one
football game—the last game of
the 1906 series—he is reported to
have "roughed" about half of the
Salina High School line because
his friend and teammate, J. F.
(Six) McDonnell (who now lives
in Abilene) had been accidentally
knocked out by Forest Ritter, a
Salina player.

Among those who knew Dwight
well when in high school is Mr. J.
W. Howe, a prominent member of
the school board and civic leader.
He remembers the boy clearly.

the United States are drawn to
the same scale, to show the com-
parative size of the enemy's
homeland.

When soldiers come to Abilene, Kan., they ask one ques-
tion: "Where is the house where General Eisenhower
lived?" It is still the home of Mother Eisenhower.

"I always wondered why the
'gang' called him either 'Ugly Ike'
or 'Little Ike' instead of a more
attractive name like 'Smiling Ike.'
Dwight had a good personality. He
was generally well liked and made
friends easily.

"He had self assurance but never
in all my contact with him did he
ever show any conceit. He resented
this in other boys more than any-
thing else. In fact, he would dis-
like a boy for being conceited
much more than for something he
had done. He had a good physique,
wore his clothes well, never overly
dressed but usually had good ma-

terial in his clothes, for he had to
make them last. Ike had to work
at all times when not in school.
He would take any job he could do
and seldom complained about the
work being too hard.

"To me the outstanding point of
his character," Mr. Howe points
out, "was that he never showed
any bitterness about having to
work. He took this for granted.
However, in sessions of his 'gang'
he took the attitude that a better
equalization of economic affairs
should be made. As I stated, he
made friends with many people,
but still and all he had, of course,
his select group. The Eisenhower
family had no special pull any-
where, and never asked for any.

"Dwight had two outstanding
qualifications which, when prop-
erly applied, will mean success to
most people in almost any vocation
they may choose. He was especially
observant. He could walk through
a plant, or a building or manufac-
turing establishment, or watch
someone who was adept at his
work and be able to tell you every-
thing he had seen.

Stevens barns last night and had
to retire, but is able to be around
as usual today.

Elbe Heynen and Garrett Per-
due of the "400" will give a dance
every night this week at Gregg's
hall.

The bowling alleys on Lamine
street will be open every night
this week for the edification of
visitors to the State Fair.

More came Out of that Old Lunch Pail than went In

Big sandwiches with thick slices of bread helped to build the brawn that built America's industrial might.

Wartime demands upon men and women, young and old, have brought us as a nation to a stern realization of the need for an adequate diet for all. So today—in homes, in plant cafeterias and in restaurants large and small

—America is wisely recognizing the nutritive importance of bread. Now enriched, it is the finest bread ever set before the human race... so good that our ancestors would have called it cake.

When you eat plenty of enriched bread, you improve your diet besides saving ration points for other good foods.

In your own family circle or on evenings when good friends surround you, simple sandwiches become delicacies when served with golden, bubbling Budweiser... which accents the flavors of all good foods, yet never loses the identity of its own distinctive taste.

In addition to supplying the bakers of America with yeast, Anheuser-Busch manufactures glider and bomber fuselage frames, wing parts, gun turret parts and foodstuffs for the government, and produces other materials which go into the manufacture of: Rubber, Aluminum • Munitions • Medicines • B Complex Vitamins • Hospital Diets • Baby Foods • Bread and other Bakery products • Vitamin-fortified cattle feeds • Batteries • Paper Soap and Textiles—to name a few.

More Than SIX MILLION Firestone synthetic rubber Tires Now in Service !

Today's Firestone DeLuxe Champion Tires are Setting New Records for Mileage and Safety

ON THE fighting fronts and on the home front, more than six million Firestone Tires, made with synthetic rubber, are helping to transport vitally important manpower and materials. In every respect, these tires are upholding the Firestone tradition of "Best in Rubber—Synthetic or Natural."

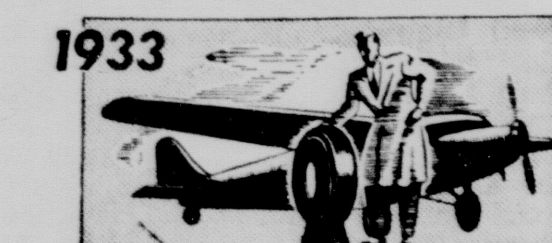

Today's Firestone Tires are setting new records in mileage and safety because for more than 20 years Firestone has been a pioneer and pacemaker in synthetic rubber. This position of leadership has enabled Firestone to develop special compounds, new constructions and improved manufacturing methods for synthetic rubber tires.

As a result, Firestone DeLuxe Champion Tires now provide many new and revolutionary features in addition to such patented and exclusive advantages as Safti-Lock Gum-Dipped Cords for greater body strength and extra blowout protection — Vitamic Rubber for longer life — Gear Grip Tread for utmost protection against skidding and for added mileage — and that priceless ingredient which we Americans call "know-how" backed by 44 years of experience in building many millions of quality tires.

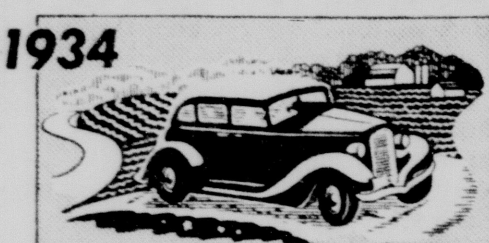

So when you get permission from your ration board to buy new tires, buy time-tested, extra-value Firestone DeLuxe Champions — the tires that stay safer longer.

Listen to the Voice of Firestone with Richard Crooks and the Firestone Symphony Orchestra, under the direction of Howard Barlow, Monday evenings, over N.B.C.

Fire Destroys Amusement Park

FORT LEE, N. J., Aug. 14.—(P)—Most of Palisades Amusement Park was a smoldering ruin today after a fire in which 15 or more persons were injured or affected by smoke and a Sunday afternoon crowd estimated at 25,000 was sent stampeding.

Several spectacular rescues were effected as flames swept the popular resort atop the Palisades opposite 125th street, New York.

Scores of those injured or overcome were treated at three hospitals, and others were cared for by rescue and first aid squads and volunteers.

Irving Rosenthal, the proprietor, estimated damage to the park at \$1,500,000 and said it would be closed for the remainder of the season.

The blaze destroyed about 85 per cent of the property.

Witnesses said the Palisades fire started in the Virginia Reel, a circular ride which was loaded with children. A short circuit under the ride was blamed.

First in Battle Scorned Souvenirs

MAFFIN BAY, Dutch New Guinea, Aug. 14.—(P)—It's the second wave—the reinforcement troops—who get the souvenirs, says Sgt. John J. Bazarich, 4639 Austria Ave., St. Louis.

"When we finally broke through and cleaned out the caves of Rocky point at Maffin Bay in one of the bitterest fights in the South Pacific, none of us had any stomach for souvenirs," said Bazarich. "Two many of our guys got killed. We felt those souvenirs had our buddies' blood on them. We left them for the reserve troops which came up afterward and relieved us," he added.

Lon Maness, Police Officer, Resigns

Officer Lon Maness, 804 East Thirteenth street, has resigned as a police officer effective immediately. Officer Maness has accepted employment at the Missouri-Kansas-Texas railroad shops where he enters upon his new duties this week.

Officer Maness was a police officer several years ago, but in the past few years had not been a member of the department until this spring when he was appointed

Escape Roads Cut, Allied Air Forces Pound on Every Movement of the Enemy

(Continued from page one)

In a smoking cauldron, covered like a lid by thousands of Allied bombers pounding on every German in sight, the enemy fought a bitter, tangled battle to escape extermination.

American troops, closing in on the 30-mile deep pocket, found Germans mowed down by the hundreds.

So confused was the enemy that remnants of six divisions were found on one narrow three-mile front.

Greatest American advance was along the middle of the contracting claw east of Mortain where the infantry bore down on the vicinity of mortain in a smash of 7 to 12 miles by noon today. Mortain is 13 miles east of Mortain. Barenton on the Mortain-front road, was captured in this drive.

(The German radio said there also was violent fighting near Carrouges, 13 miles southwest of Argentan, with approximately four American divisions blocking the Germans' chief escape routes).

The Canadian offensive got off at noon following an attack by hundreds of heavy and medium bombers which smashed enemy strongpoints within 3,000 yards of the Allied front lines.

The Canadians, who had been five miles north of Falaise and 1 1/2 to 2 miles north of the Laison river, got across that major barrier. Capture of Falaise, three miles south of the river, would close another German escape point. The British on the Canadians' right flank also scored gains of three miles and more, capturing Martainville and pushing on to near Bonnoeil, seven miles north-west of Falaise, and taking Proussy, two miles north of Condes-sur-Noireau, 15 miles west of Falaise. Seven mile spurts were made by the Americans on the west side of the pocket along the Vire-Tinchebray line.

It was announced that American troops on Saturday had taken 2,828 more German prisoners, bringing their four-day total to more than 13,000. German prisoners taken in France since the beginning of the campaign had now mounted to beyond 115,000.

German Prisoner Of War Beaten

OMAHA, Aug. 14.—(P)—A German prisoner of war at the Scotts-bluff, Neb., camp who wanted to write his father, a resident of the United States, was severely beaten Friday night by fellow prisoners, who declared the father was "not a good Nazi," the Seventh Service Command announced today.

The prisoner was a member of a group captured near Cherbourg. "Two or three of the other prisoners told him that he couldn't write his father because the father was not a good Nazi," the army said, "but the prisoner insisted on writing and was beaten so badly he was taken to the camp hospital." His condition was said not to be serious.

Club Award to Mrs. Dave Greer

The July meeting of the Prairie Ridge Extension club was held at the home of Mrs. Earl Gregory recently, with 20 members and visitors present. A contributed covered dish luncheon was served at the noon hour.

The afternoon meeting was opened by the president, Mrs. Harry Texis, and Mrs. Jason Chamberlain led the devotional. Child development was the topic for discussion.

Sack house dresses were judged, with the prize going to Mrs. Dave Greer. Mrs. Gregory displayed a number of applied luncheon sets made of feed sacks.

The meeting closed with the club song.

Eight Forfeit Traffic Bonds

Eight parking violators failed to appear in police court this morning and their bonds, of one dollar each, were ordered forfeited by Magistrate C. W. Bente.

They were: Joe Payne, 919 West Tenth street; Joe Herndon, 808 East Broadway; Mrs. H. L. Parsons, 413 West Cooper; Henry Lamm, R. F. D. No. 2; Fred Shackles, Dorothy Sheets, address not given, and Stanley Mindell, 618 1/2 West Broadway, all charged with overtime parking.

C. L. Connor, Kansas City, charged with improper parking.

Fire Destroys Trailer Home

The trailer home of Mrs. Lillian Delkeskamp, a former Sedalian, 4217 East Fifteenth street, Kansas City, burned completely Sunday afternoon following the explosion of a gasoline cook stove.

Mrs. Delkeskamp and some guests were seated at their noon meal when the explosion occurred. Fortunately they were uninjured. Nothing was saved. Included in the loss were two diamond rings and a gold watch. The loss is partially covered by \$1,100 insurance.

An employee of Swift & Co., in the Kansas City office, Mrs. Delkeskamp left Sedalia in April of this year.

Mrs. Claude Clark

Mrs. Margaret T. Clark, wife of Claude Clark, 1421 South Carr avenue, died at 11 o'clock Sunday night at the family home.

Mrs. Clark was born March 27, 1890 in Chetopa, Kas., the daughter of John and Grace Bonker and came to Sedalia with her parents when a baby. She had lived here all her life.

Surviving besides her husband are the following sisters, Mrs. Floyd McKnight, 3760 Wayne, Kansas City; Mrs. Mason Thompson, 2600 Chestnut, Kansas City; Mrs. Carl Hammerserom, Geneva, Neb.; Mrs. William Hilton and Miss Melita Bonker, Vallejo, Calif.

Mrs. Clark had been ill about a year and bedfast since May. Funeral services will be held at 2:00 o'clock Wednesday afternoon at the Gillespie funeral home with Rev. Ralph E. Hurd, to officiate. The body will remain at the funeral home until after the service.

Burial will be in Crown Hill cemetery.

Ceilings Soon On New Goods

WASHINGTON, Aug. 14.—(P)—The Office of Price Administration is readying a ceiling policy for manufacturers resuming civilian production.

This disclosure by OPA officials coincided today with a protest from Senator Reynolds (D-NC) against what he called holding back production "by tight profit and wage controls."

OPA officials said that the ceilings will be determined largely by production costs, that little effort will be made at this stage to figure industry-wide formulas and that field offices, rather than Washington, will make the rulings in most cases.

The War Production Board's order permitting a limited amount of civilian goods manufacture is to go into effect tomorrow.

Reynolds' protest was in a statement in which he said he would seek effective legislation unless government agencies provide price ceiling adjustments for industries as soon as they convert to civilian production.

"There is too much of a tendency to give lip service to increased production, and at the same time retard it by tight profit and price controls," he said.

Regulations For Fuel Oil Rations

WASHINGTON, Aug. 14.—(P)—Fuel oil rations will be withdrawn from anyone who destroys coal or wood burning equipment or who sells or gives it away to obtain ration stamps, the Office of Price Administration said today.

Until now rations were revoked but not withheld in such cases OPA explained.

MARKETS

Leaders Depressed

By Victor Eubank
NEW YORK, Aug. 14.—(P)—Motors, rubbers and selected industrials attracted modest bids in today's stock market although many leaders were a trifle depressed by lack of investment interest.

Such support as appeared in the rather lackadaisical session again was based partly on the idea the surging of the Nazis would find the home front better prepared for reconversion than most had expected. There were numerous doubters, however, and these continued to lighten accounts and adjourn to neutral territory to await more definite bullish inspiration.

Rails and steels were indifferent performers from the start. The recently bulging junior automobile issues, which rested toward the end of the week, displayed signs of life for a while but failed to follow through and near-closing trends generally were notably irregular. Transfers for the full proceedings of around 700,000 shares were among the smallest for a full stretch in two weeks.

Selling Hit Rye Pit

By Willard Robertson
CHICAGO, Aug. 14.—(P)—Selling hit the rye pit today, dropping prices as much as a cent at times to new seasonal lows for December and May contracts before a rally recovered most of the losses. The rye action affected wheat adversely but oats showed independent strength most of the time.

Favorable war news on the European and Pacific fronts discouraged longs from holding rye. There were contending influences in the market, continued corn belt drought being offset by the war news and harvesting of the spring wheat crop in the northwest and in Canada.

Corn bookings were reported at 145,000 bushels, fairly heavy.

Wheat closed 1/4 cent lower to 1/2 cent higher, September \$1.53 1/2, after September and May had equalled seasonal lows. Oats were up 1/4 to 1/2 cent, September 69 1/2 to 69 3/4. Rye rallied to close 1/4 cent off to 1 1/4 cent up, September \$1.04 1/2 to \$1.04 1/2, after December and May had hit seasonal lows at \$1.02 1/2 and \$1.03 1/2, respectively. Barley was 1/2 to 1/2 cent higher, September \$1.11.

Time to Begin Buying Gifts For Overseas

Postmaster General Announces Rules For Mailing Boxes

"Save strong string and box material and start to plan shopping," Postmaster General Frank C. Walker advises Americans in announcing the rules for mailing of Christmas gifts for Army and Navy personnel overseas.

This year the Christmas mailing period for both Army and Navy overseas forces is the same—September 15 to October 15. After October 15 no gift parcel may be mailed to a soldier without the presentation of a written request from him.

The great demand upon shipping and the need for giving preference to arms, munitions, medicine and food is the prime reason for the early mailing date. Moreover, gift parcels must travel great distances to reach Army and Navy personnel who are located at remote points, and frequently the transfer of large numbers to new stations necessitates forwarding of packages and additional time is required.

"The response that our people made last year during the overseas mailing period demonstrated that they will cooperate in any measure designed for the welfare of our armed forces personnel," Mr. Walker said. "It is not easy to concentrate on Christmas gifts in the midst of warm weather here at home but our people recognized the need, and because they want the men and women who are absent from their homes to know that they are not forgotten at

Christmas they took pains to assure prompt delivery of Christmas gifts.

Some Facts
"I know that our people will observe the overseas mailing schedule once more this year but I do wish to stress this fact: More care must be taken in wrapping and packing parcels securely and addressing them clearly and correctly."

"It is not a pleasant thing to visit a postal concentration center and see the numbers of Christmas parcels which will never reach servicemen and service women. Post office personnel have orders to do everything they can to effect delivery of such gifts, because we know how important they are for the happiness of the armed forces. Too frequently, nothing can be done."

"I am sorry that anyone ever mentioned that the size of a shoe box is the approximate limit for packages intended for gift mailing overseas. Unhappily many people become convinced that a shoe box is the best possible container. We must be mindful that these gifts travel far, with shipping space crowded. If the gifts are to be protected in transit they must be packed in boxes made of metal, wood, solid fiberboard, or strong double-faced corrugated fiberboard, reinforced with strong gummed paper tape or tied with strong twine. If both tape and strong twine are used, so much the better. If the outer wrapper is crushed—and this is likely to happen—the loss of contents may be prevented if fiberboard boxes are wrapped in heavy paper."

Some Crushed
"We were unable to deliver many parcels which families and friends sent to men and women overseas last year because they were crushed in transit and the gift and the outside wrapper became separated. We would have been able to make delivery if the address had been shown on the inside wrapper. We advise that everyone write the address of the sender and addressee inside the package as well as outside."

"Christmas gifts mean much to our people overseas. Because strong twine, heavy paper and boxes and fiberboard will prove of real help in making delivery of gifts possible I urge those at home to begin saving these materials now. As time goes on they are going to become even more scarce than they are now."

Among the more important rules for Christmas mailings to the armed forces overseas are the following:

The parcel must not exceed five pounds, and must not be more than 15 inches in length or 36 inches in length and girth combined. It should be marked "Christmas parcel" so that it may be given special attention to assure its arrival before December 25.

Not more than one parcel may be mailed in any one week to the same member of the armed forces by or in behalf of the same mailer.

When combination packages are made up of such items as miscellaneous toilet articles, hard candies, soaps, etc., the contents should be tightly packed so that they will not become loosened in transit and damage the contents or the cover. Hard candies, nuts, caramels (including those covered with chocolate), cookies, fruit cake, and chocolate bars individually wrapped in waxed paper should be enclosed in inner boxes of wood, metal, or cardboard.

Perishable goods, such as fruits and vegetables that may spoil, are prohibited. Intoxicants, inflammable materials such as matches or lighter fluids, poisons, and anything that may damage other mail also are prohibited. Gifts enclosed in glass should be substantially packed to avoid breakage. Sharp instruments, such as razors and knives, must have their edges and points protected so that they cannot cut through the coverings and injure postal personnel or damage other packages.

Relatives and friends who know that the personnel in the armed services to whom they plan to send gifts are at far distant points should begin to mail their packages on the opening day—September 15—of the mailing period. Last year late mailings, causing concentration of great numbers of packages in the final days of the mailing period, threatened to defeat the program. It is stressed that success can be assured, with the limited personnel and facilities available, only if the public gives full cooperation through prompt mailings of the overseas gift parcels from the opening of the mailing period.

In The Service

Two Hughesville, Mo., boys, Richard C. Kidwell, 17, son of Mr. and Mrs. J. J. Kidwell and Jack S. Mullineaux, 18, Route 1, are stationed at the U. S. Naval Training Center, Great Lakes, Ill.

Chester L. Nye, son of Mrs. Maggie Nye, 1400 South Missouri avenue, has been promoted from a corporal to a staff sergeant. He has been in service two years and for the past year has been stationed in the Aleutian Islands.

Mrs. Nye has two other sons in service, Sgt. Oliver Nye, Fort Knox, Ky., and Pvt. Robert Nye of Camp Fanner, Texas.

Mrs. Jane Crosslin, 122 East Seventh street has received word that her grandson, Leonard W. Crosslin, received his wings and was commissioned a second lieutenant in the army air corps August 12. After spending a ten-day furlough with his parents, Mr. and Mrs. C. C. Crosslin, Shreveport, La., he will report for further assignment. C. C. Crosslin, former Sedalia, who now owns and operates the Jersey Gold Creamery in Shreveport also has another son, Clarence C. Crosslin, a lieutenant in the army air force, serving in the Pacific area.

Ralph L. Meyer, son of Mr. and Mrs. Harry P. Meyer, of 1905 East Broadway, who is in the U. S. Marines and has seen service at

Bougainville, Guadalcanal, at the New Hebrides and New Caledonia, has received a promotion from staff sergeant to technical sergeant. He has been in service a considerable portion of that time has been in the Southwest Pacific.

Tech. Sgt. Melvin C. Morton, son of Mr. and Mrs. Porter Morton, 1921 South Montgomery avenue, whose wife resides at 1902 South Harrison, and Pvt. Jack McMurdo, son of Mr. and Mrs. J. O. McMurdo, 700 East Broadway, whose wife resides in Marshall, met recently in the South Pacific. They had a grand time talking and in a few days arranged another meeting which this time included another Sedalia boy, Pvt. George "Windy" Baker, son of Mrs. G. B. Baker, 1000 West Fourth street. The boys plan to meet as often as possible and hope to have Jack Slocum, son of Mrs. Jennie Slocum and John Alfred Maxwell, son of Mr. and Mrs. A. Maxwell, 2000 West Broadway, meet with them soon. They are all in the same area.

Mrs. Elvis Howerton, who is making her home with her parents, Mr. and Mrs. Jay Nicholson, 1400 East Thirteenth street, for the duration, received a box from her husband, who is an aerial gunner in Italy.

It contained a bracelet and necklace made of a rock, a scarf with her name embroidered in it

it, and of his airplane with the name "Stinky" and the Isle of Capri, a belt, two glass bottles with one containing oil and lava from the volcano from Vesuvius, the other with flack picked out of the wings of his plane, and a book "The Isle of Capri" in which were scenes of the island.

Harry Wesley Steele, 33, husband of Mrs. Kathryn Virginia Steele, 118 South Prospect avenue, Sedalia, Mo., is receiving his initial Naval indoctrination at the U. S. Naval Training Center, Great Lakes, Ill.

His recruit training consists of instruction in seamanship, military drill, and general Naval procedure. During this period a series of aptitude tests will be taken by the recruit to determine whether he will be assigned to a Naval Service School or to immediate active duty at sea.

His recruit training completed, the seaman will spend a period of leave at home.

Pfc. Jack W. Lewis, of Sedalia, has been transferred to the infantry at his own request. He entered service in August 1942 at Fort Leavenworth, and completed his basic training at Fort Meyer, Va. He is now at Camp Barkeley, Texas.

Mr. and Mrs. J. B. Ginn, 1721 South Harrison avenue, have received a letter from their son, Joseph B. Ginn, Jr., telling them he is now in France. He is in the Military Police division and likes

his new assignment. He said that he now has his motorcycle again. About a year ago he fractured his leg and was not permitted to ride a motorcycle.

Robert F. Parker, son of Mr. and Mrs. Earl Parker, 2106 East Seventh street, who was recently inducted into service was one of seven selected of 150 men for the Navy and has been sent to the Great Lakes Training school, where he is receiving his boot training.

WITH THE 37TH INFANTRY SOMEWHERE IN THE SOUTHWEST PACIFIC AREA—Private Cecil E. Henley, 21, of Sedalia, Mo., has joined a regiment in the 37th Division which distinguished itself by repulsing furious Japanese assaults on Hilly 700 on Bougainville, Solomon Islands.

A rifleman in a front-line company, Henley is undergoing training for jungle combat against the Japanese. Part of his training requires him to go on reconnaissance patrols deep into enemy territory.

Henley has been overseas more than three months and was stationed briefly at New Caledonia. His parents, Mr. and Mrs. Jasper Henley, live in Sedalia.

Word has been received by relatives here that Charles P. Bottoms, Jr., S 1/c (is somewhere in the South Pacific. He is the son of Mr. and Mrs. Charles Bottoms, former Sedalians, who are making their home in Portland, Ore., for the duration.

Gas Research

WHEN a new production problem comes up—and plenty have come up since the war began!—it often has developed that the answer already has been found by the designers and builders of Gas furnaces through research and experiment already done.

In addition to all the other progress in the industrial heating field, the Gas industry itself has for years been engaging steadfastly in research in its own Laboratories, in university laboratories, and in the laboratories and shops of Gas equipment manufacturers... and some of the results obtained are today helping to win the war—through better

Gas equipment which is speeding production of all types of glass and ceramic products.

But that's not all. For the home of the future the Gas industry is concentrating all their efforts to bring to the homeowner greater comforts and conveniences than we have ever dreamed of enjoying.

They are planning models of Gas ranges, so beautiful and so revolutionary that you would not recognize them as cooking appliances; Gas furnaces that both heat and cool your home automatically; Gas water heaters with increased efficiency; Gas refrigerators that are startling in their magic. All these will be in your Gas appliances that have never been on the market.

4-H Club Roundup Friday

All-Day Event
To Be Staged At
Convention Hall
In Liberty Park

4-H Roundup in Pettis County will occur on Friday, August 13, as an all day event, at Convention Hall, Liberty Park. All 4-H members in the county are invited to exhibit their work and participate in the grooming and judging contests and demonstrations. The day will begin at 8:00 o'clock that morning. All exhibits are to be ready for judging at that time and the judging contests will also begin then.

At 10:00 a. m. the demonstrations will be given. After noon the style show girls and grooming contestants will be judged preceding the program. In the program, the girls will model their garments, awards will be presented for the various activities and special numbers will be given by club members. The afternoon will close with an appropriate ceremony.

Will Demonstrate Home Remodeling

Plans have been completed for the poultry house remodeling and thin-section floor demonstration meeting which will be held on the A. A. Wherley farm, 5 miles east of Sedalia and 3 miles south of Beaman on Wednesday afternoon, August 16, at 1:30 o'clock.

The Wherley's are remodeling their present laying house to make it more comfortable and roomy for their laying flock.

This remodeling job will consist of putting in a thin-section concrete floor so that it will be easier to clean and free of dampness; and a straw loft to make it cooler in summer and warmer in winter. Such equipment as dropping pits, nests, feeders, and waterers will be built.

It isn't necessary to spend a lot of money to have a comfortable laying house, says J. U. Morris, County Extension Agent. However, a laying house that is warm in winter, cool in summer, free of drafts, dry with plenty of roost space and feeder space, not only adds to the comfort of the laying flock but adds income from the flock.

E. B. Winner, Extension Poultryman, and Ralph Ricketts, Extension Engineer of the University of Missouri, will assist in the remodeling of the house and be in attendance at the meeting on next Wednesday afternoon.

All Pettis County flock owners that have poultry problems and particularly those problems that relate to housing are cordially invited to attend.

Delegate Writes To Miss Bacon

Pettis County people will be interested in the following letter which Miss Dorothy Bacon, Home Demonstration Agent, received from Hazel Deane Wicker, who is the Pettis County 4-H delegate at the American Youth Foundation Camp.

Camp Miniwanca, Shelby, Michigan.

Dear Miss Bacon:

I have been here four days now and am really in the swing of things. This is a huge place but certainly is grand. We certainly have splendid teachers. My courses this week include: "The Art of Creative Living," "College Adjustment," "Swimming," "The Life and Teaching of Jesus," and "Four-Fold Living." All by people who have been over the world, studied abroad, etc.

Next week, my courses will change. There is a lady here, just returned from India. I hope to be in her class next week. There is so much here, I'd like to take it all, but that's impossible. Believe me, I wouldn't have missed it for the world!

There are four beside myself and tent-mother in my tent. One is a French girl, one a Southern girl with a definite accent, one a girl from Ohio, and the other an Indian girl who lives on a reservation. They are all very splendid girls and great to be with.

We swim in Lake Michigan with a wonderful beach. We play tennis, volleyball, baseball, etc. in the afternoon. Everything is built around Indian tribes.

I must close as every minute is crowded full, but I wanted you to know what a grand time I'm having; what a splendid opportunity awaits one here, and how thankful I am to you and all of you who helped make it possible for me to come.

Most sincerely,
Hazel Deane.

No. 1 Sopac Ace

Leading American air ace now fighting in the Southwest Pacific theater is Maj. Thomas B. McGuire, Jr., above, of Ridge-wood, N. J. The 23-year-old fighter pilot shot down his 21st Jap plane in the recent heavy raid on Halmahera. Maj. Richard Bong, whose tally is 27 Jap planes, is now in the U. S.

Thursday, August 31, 1:30 o'clock.

Balanced Farming is accountable for greatly increased production on thousands of Missouri farms right now despite labor shortages and other hindrances, and that is mighty important. But, continues the agent, balanced farming promises also the most security to the farm family in the days ahead regardless of what the postwar period brings.

For both these reasons it is believed that Pettis county farm families will find the opportunity in this meeting, to become better acquainted with Balanced Farming, well worth the time and effort to attend.

Some of the farm practices that will be emphasized at this meeting include crop rotations, pasture improvement, soil conservation practices, such as terraces, waterways, planting on the contour, farm ponds, and quily control.

Those in attendance also will have an opportunity to see the growth of corn in a demonstration plot in which different analyses of fertilizer have been used.

Time Now For Fall Gardens

Now is the time to begin preparations for the fall garden, says J. U. Morris, county extension agent. This is particularly true in that recent rains have provided moisture so that seedbeds can be prepared and enough moisture available for the germination of seeds. Some of the old crops, if they have not already been removed, should be removed and the ground made ready for those vegetables that are adapted to the fall garden. The crops that may be removed are radishes, lettuce, beets, and other early crops.

Those vegetables that may be planted now include bush, green, and wax beans, lettuce, spinach, carrots, beets, mustard, kale, endive, turnips, kohlrabi, and radishes.

A good seedbed should be prepared. It is just as important to prepare a good seedbed for the fall garden as it was for the spring garden. Fertilizer will not only hasten growth but will add quality to the crop. A 4-12-4 or 4-16-4 fertilizer applied at the rate of one pound for each 25 feet of row for each vegetable is desired. Experiments have shown that more nearly all of the fertilizer is used by the plants if it is applied in bands on each side of the row. These bands should be at least three inches out from the plants and three inches deep.

A good fall garden will help finish filling the food supply that will be needed for both the town and farm families. Often times the fall garden out produces the spring garden because of weather conditions, fewer insects, and a cool growing season.

Merchants Win 1, Lose 1, At Jeff City

Lost to Prison Team
1 to 6; Defeat the
Tweedies 8 to 6

The Sedalia Merchants baseball team split a doubleheader Sunday at Jefferson City losing the morning game to the State Penitentiary by a score of 6 to 1 and defeating the Tweedie Shoe Co. team in the afternoon by a score of 8 to 6.

Prison Uses Three Pitchers

In the morning game the prison team started Davis, a right hander, who pitched the first three innings and was touched for a run on a walk to Shirley and a double by Ellsworth. Mickey, a left hander, pitched the next three frames and Akers, who was a former member of the K. C. Monarchs hurled the last three and held the locals hitless. Davis was touched for two hits and the only run while the left handers held the Merchants without a safe hit backed by some sensational fielding on the part of the prison team.

Ozzie Sherman pitched the morning game for the Merchants and hurled fine ball but was accorded some miserable support by his mates. His pitching deserved a much better fate. His mates did not come through with their share of the playing, turning in five errors and playing lamely in the field. Crider and Ellsworth were the only local players to connect for safe blows.

Shirley Hits a Homer

In the afternoon game the Merchants got away to a lead when Gus Shirley hit the first ball pitched by Ed Link over the right field fence for a home run, but the Merchants were still wobbling in the field and turned in two errors in the first inning back of Lefty Hal Green, coupled with a hit and the Jefferson City club went into a 2 to 1 lead. The Merchants tied the count in the fourth, added another in the fifth and blasted Link from the hill in the sixth with a four run attack.

In running out a hit in the sixth during the rally, Pitcher Green pulled a muscle in his leg and after walking the first two batters to face him in the sixth gave way to Ozzie Sherman who worked the rest of the game. Both Sherman and Green pitched well and were accorded some fine support in the field. Morris and Shirley in the outfield came through with some nice catches and Woolford, Ellsworth and Livengood starred in the infield.

Millard Humes, who is out with an injured leg, did not make the trip and Don Weller caught both games and did a nice job. For the Merchants in the afternoon Crider led the hitters with four safe blows and with one in the morning game gave him five hits for the day. Shirley with a homer and two singles was next, while Ellsworth and Manager Nichols chipped in two hits for the afternoon.

The Merchants were leading by a score of 7 to 3 when Green was removed from the game and had pitched a fine game with the exception of the first inning. After that the Merchants got busy in the field and turned in some brilliant work.

To Versailles Sunday
Next Sunday the Merchants journey to Versailles where they will meet the team at that place for a second time this season.

Merchants' lineup for the morning game: Livengood, 1b, Crider and Nichols 3b, Ellsworth, ss, Woolford 3b, Morris 1f, Shirley cf,

• Sports Roundup

By Hugh Fullerton, Jr.

NEW YORK, Aug. 14—(AP)—For the benefit of baseball teams that are wondering where they'll train next spring, we offer this report from Oklahoma U., which recently finished a summer football session and will start again in 90-degree weather in September: "Trainer Ted Owen is stuck on hot weather for conditioning because (1) players can be reduced to their normal playing weight faster and get in shape faster, (2) players can recover faster from 'Charleys' and other injuries, (3) it is much easier for a team trained in heat to go north and play in colder climates than for northern teams to come south and play in heat, (4) players who train in heat rarely contract colds. They don't chill. . . . Interesting, but the ball clubs will continue to train where Judge Landis tells them, regardless of temperatures.

Optimism Dept.

Vince Dimaggio, who is having a slight argument with Owner Bill Benswanger of the Pirates over a \$9.97 dinner check (the club's limit is \$4.50) says: "If you think I eat too much, trade me."

Monday Matinee

For the first time, all of the naval academy's football games except the army scrap, will be broadcast under commercial sponsorship this fall. . . . Ed Ray, the young Texas tennis star, will net at Andover academy this fall.

Service Dept.

Two of last season's Camp Lejeune footballers fought with the Second Marine division at Saipan. Lieuts. Alfred Mannino (Iowa end) and Alex Leugo (Purdue center) led platoons into the thick of the fighting. . . . Candidate for the Camp Ellis, Ill., football team is Corp. Tok Nitahara, an American of Japanese descent who played for Long Beach, Calif., junior college.
